RICHARD FURDA
CHIEF OF POLICE

As part of our continuing effort to provide professional and efficient police service we actively seek feedback from the public regarding contact they have had with our officers.

Your response will be used internally to help us recognize potential deficiencies and to acknowledge police officers who perform exceptionally. It will also aid us in evaluating present departmental procedures and methods. The feedback you provide will also facilitate the improvement of future relations between the police and the public. Your feedback is an important means of providing additional citizen input into how we serve the community.

Please complete a Police Service Form at one of the three links provided. There are separate forms for General Police Contact, Traffic Contact, and Detective Bureau Contact. The department will follow up on unfavorable comments however you have the option to remain anonymous and not be involved in that follow up, if you wish.

Thank you,

Richard Furda
Chief of Police
