TOWNSHIP OF PLAINSBORO
PART I
REPORT OF AUDIT OF FINANCIAL STATEMENTS
AND SUPPLEMENTARY INFORMATION
YEARS ENDED DECEMBER 31, 2018 AND 2017

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members
of the Township Committee
Township of Plainsboro
County of Middlesex
Plainsboro, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements – regulatory basis of the Township of Plainsboro ("Township"), County of Middlesex, State of New Jersey, which comprise the comparative balance sheets – regulatory basis of the various funds and the comparative statements of general fixed assets – regulatory basis as of December 31, 2018 and 2017 and the related comparative statements of operations and changes in fund balance – regulatory basis and the related notes to the financial statements for the years then ended and the statement of revenues – regulatory basis, the statement of expenditures – regulatory basis and the statement of fund balance – regulatory basis of the various funds for the year ended December 31, 2018 as listed in the regulatory basis financial statements section of the accompanying table contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey ("Division") as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the requirements prescribed by the Division. Those standards and the requirements prescribed by the Division require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

WISS & COMPANY, LLP

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by the Township on the basis of the financial reporting provisions of the Division (regulatory basis), which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the Division.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Township as of December 31, 2018 and 2017, or the results of its operations and changes in fund balances for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects the comparative balance sheets - regulatory basis of the various funds and the comparative statements of general fixed assets – regulatory basis of the Township as of December 31, 2018 and 2017, and the results of its operations and changes in fund balances of such funds – regulatory basis for the years then ended, and the revenues - regulatory basis, expenditures – regulatory basis and fund balance of the various funds for the year ended December 31, 2018 in accordance with the financial reporting provisions of the Division as described in Note 1.

Report on Supplementary Information as Required by the Division in Accordance with the Regulatory Basis

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Township's regulatory basis financial statements. The accompanying supplementary information, as identified in the table of contents as Schedules A-4 through E-2 and the comments section, are presented for purposes of additional analysis as required by the Division and are not a required part of the 2018 regulatory basis financial statements of the Township. Schedules A-4 through E-2 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the regulatory basis financial statements. The information has been subjected to the auditing procedures applied in the audit of the regulatory basis financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the regulatory basis financial statements or to the regulatory basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the regulatory basis financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 2, 2019, on our consideration of the Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT**

Honorable Mayor and Members
of the Township Committee
Township of Plainsboro
County of Middlesex
Plainsboro, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey ("Division"); and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the regulatory basis financial statements of the Township of Plainsboro ("Township"), County of Middlesex, New Jersey as of and for the year ended December 31, 2018, and the related notes to the regulatory basis financial statements, which collectively comprise the Township's basic regulatory basis financial statements, and have issued our report thereon dated August 2, 2019, in which we expressed an adverse opinion on the conformity of the statements with accounting principles generally accepted in the United States of America due to the differences between those principles and the financial reporting provisions of the Division.

Internal Control Over Financial Reporting

In planning and performing our audit of the regulatory basis financial statements, we considered the Township's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the regulatory basis financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Township's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

WISS & COMPANY, LLP

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's regulatory basis financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

NOTES TO REGULATORY BASIS FINANCIAL STATEMENTS

Township of Plainsboro
Notes to Regulatory Basis Financial Statements
Years ended December 31, 2018 and 2017

1. Summary of Significant Accounting Policies

Reporting Entity

The Governmental Accounting Standards Board ("GASB") has established criteria to be used to determine which component units should be included in the financial statements of the oversight entity. The Division of Local Government Services, Department of Community Affairs, State of New Jersey ("Division") requires the financial statements of the Township of Plainsboro ("Township") to be reported separately.

The Township is an instrumentality of the State of New Jersey, established to function as a municipality. The Township Council consists of elected officials and is responsible for the fiscal control of the Township.

Except as noted below, the financial statements of the Township include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Township, as required by N.J.S.A. 40A:5-5. Accordingly, the financial statements of the Township do not include the operations of the municipal library or the regional school district, inasmuch as their activities are administered by separate boards.

Description of Funds

The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. GASB codification established three fund types to be used by general purpose governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States ("GAAP").

The accounting policies of the Township conform to the accounting principles applicable to municipalities, which have been prescribed by the Division. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the financial transactions and accounts of the Township are organized on the basis of funds and an account group which is different from the fund structure required by GAAP. A fund or account group is an accounting entity with a separate set of self-balancing accounts established to record the financial position and results of operations of a specific government activity.

1. Summary of Significant Accounting Policies – (continued)

As required by the Division, the Township accounts for its financial transactions through the following individual funds and account group:

Current Fund – records resources and expenditures for governmental operations of a general nature, including federal and state grant funds.

Trust Funds – records the receipts, custodianship and disbursement of monies in accordance with the purpose for which each reserve was established.

General Capital Fund – records the receipt and disbursement of funds for the acquisition of general infrastructure and other capital facilities, other than those acquired through the Current Fund. General bonds and notes payable are recorded in this fund offset by deferred charges to future taxation.

Open Space Trust Fund – account for the operation and acquisition of recreational and open space facilities throughout the Township.

Payroll Trust Fund – account for the operation of the payroll function.

Public Assistance Trust Fund – account for the receipt and disbursement of public assistance funds.

General Fixed Assets Account Group – utilized to account for land, buildings, machinery, equipment and vehicles that have been acquired by other governmental funds, other than utility funds.

Basis of Accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from GAAP applicable to local governmental units. The more significant accounting policies and differences in the State of New Jersey are as follows:

A modified accrual basis of accounting is followed with minor exceptions.

Revenues – are recorded when received in cash except for certain amounts which are due from other governmental units. Federal and state grants are realized as revenue when anticipated in the Township's budget. Receivables for property taxes are recorded with offsetting reserves on the comparative statements of balance sheets - regulatory basis of the Township's Current Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Township, which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received. GAAP requires revenues to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

Township of Plainsboro
Notes to Regulatory Basis Financial Statements
Years ended December 31, 2018 and 2017

1. Summary of Significant Accounting Policies – (continued)

Expenditures – are recorded on the "budgetary" basis of accounting. Generally expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the encumbrance accounting system. Unexpended or uncommitted appropriations at December 31 are reported as expenditures through the establishment of appropriation reserves unless cancelled by the governing body. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements and constitute part of the Township's statutory appropriation reserve balance. GAAP requires expenditures in the Current Fund to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Appropriation Reserves – unexpended appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be cancelled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis, whereas interest on utility indebtedness is on the accrual basis. Appropriation reserves are not established under GAAP.

Encumbrances – contractual orders at December 31 are reported as expenditures through the establishment of encumbrances payable. Under GAAP, encumbrances outstanding at year end are reported as reservations of fund balance because they do not constitute expenditures or liabilities.

Deferred Charges – the basis of accounting utilized by the Township requires that certain expenditures be deferred, and raised as items of appropriation in budgets of succeeding years. These deferred charges include the two general categories, overexpenditures and emergency appropriations. Overexpenditures occur when expenditures recorded as "paid or charged" exceed available appropriation balances.

Emergency appropriations occur when, subsequent to the adoption of a balanced budget, the governing body authorizes the establishment of additional appropriations based on unforeseen circumstances or for other special purposes as defined by statute. Overexpenditures and emergency appropriations are deducted from total expenditures in the calculation of operating results and are established as assets for deferred charges on the Current Fund balance sheet - regulatory basis. GAAP does not permit the deferral of overexpenditures to succeeding budgets. In addition, GAAP does not recognize expenditures based on the authorization of an appropriation. Instead, the authorization of special purpose expenditures, such as the preparation of tax maps or revaluation of assessable real property, would represent the designation of fund balance.

Years ended December 31, 2018 and 2017

1. Summary of Significant Accounting Policies – (continued)

Compensated Absences – expenditures relating to obligations for unused vested accumulated vacation and sick pay are not recorded until paid. GAAP requires that the amount that would normally be liquidated with expendable available financial resources be recorded as an expenditure in the Current Fund and the remaining obligations be recorded as a long-term obligation.

Sale of Municipal Assets – the proceeds from the sale of municipal assets can be held in a reserve until anticipated as a revenue in a future budget. GAAP requires such proceeds to be recorded as a revenue in the year of sale.

Interfunds – the advances from the Current Fund are reported as interfund receivables with offsetting reserves, which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves. GAAP does not require the establishment of an offsetting reserve.

Inventories of Supplies – the costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories are not included on the various comparative balance sheets - regulatory basis. GAAP does not require the establishment of an offsetting reserve.

Fixed Assets – Current Fund and General Capital Fund – the property and equipment purchased by the Current Fund and the General Capital Fund are recorded as expenditures at the time of purchase and are capitalized in the General Fixed Assets Account Group. GAAP requires capitalization of such expenditures.

Net Pension Liability and Pension Related Deferred Outflows of Resources and Deferred Inflows of Resources and Pension Expense – the requirements of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68* require governmental entities to record their distributive share of net pension liability, deferred outflows of resources, deferred inflows of resources and total pension related expense. Accounting principles applicable to municipalities, which have been prescribed by the Division, do not require the recording of these liabilities, deferrals and expenses, but do require the disclosure of these amounts. Refer to Note 7 – Pension Plans for these disclosures.

Net Other Postemployment Benefits (“OPEB”) and OPEB Related Deferred Outflows of Resources and Deferred Inflows of Resources and OPEB Expense – the requirements of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* require governmental entities to record their distributive share of other postemployment benefits liability, deferred outflows of resources, deferred inflows of resources and total OPEB related expense. Accounting principles applicable to municipalities, which have been prescribed by the Division, do not require the recording of these liabilities, deferrals and expenses, but do require the disclosure of these amounts. Refer to Note 8 – Other Postemployment Benefits for these disclosures.

Regulatory Basis Financial Statements

The GASB Codification also defines the financial statements of a governmental unit to be presented in the basic financial statements to be in accordance with GAAP. The Township presents the financial statements listed in the table of contents which are required by the Division and which differ from the financial statements required by GAAP. In addition, the Division requires the financial statements listed in the table of contents to be referenced to the supplementary schedules. This practice differs from GAAP.

Length of Service Awards Program - LOSAP

The Division does not require an audit of the Length of Service Awards Program (LOSAP). The Township has omitted the LOSAP information from its financial statements. A separate Accountant's Review Report has been issued for the LOSAP program. GAAP requires the inclusion of such information in the financial statement.

Comparative Data

Comparative data for the prior year has been presented in order to provide an understanding of changes in the Township's financial position and operations. However, comparative data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

Recent Pronouncements

Pronouncements Implemented – The GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* in June 2015. This Statement replaces the requirements of Statement No. 45 and the primary objective of this Statement is to improve accounting and reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local government employers about financial support for OPEB that is provided by other entities. The requirements of this Statement are effective for financial statements for reporting periods beginning after June 30, 2018. The Township has implemented Statement No. 75 during the year ended December 31, 2018, which resulted in additional disclosures in the notes to the financial statements.

Recently Issued Accounting Pronouncements – The GASB issued Statement No. 84, *Fiduciary Activities* in January 2017. This Statement establishes standards of accounting and financial reporting for fiduciary activities. The requirements of this Statement are effective for periods beginning after December 15, 2018. Management has not determined the impact of the statement on the financial statements.

1. Summary of Significant Accounting Policies – (continued)

The GASB issued Statement No. 87, *Leases* in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for periods beginning after December 15, 2019. Management has not determined the impact of the statement on the financial statements.

Subsequent Events

The Township has reviewed and evaluated all events and transactions from December 31, 2018 through August 2, 2019, the date that the financial statements were available for issuance. The effects of those events and transactions that provide additional pertinent information about conditions that existed at December 31, 2018 have been recognized in the accompanying financial statements.

On April 24, 2019, the Township adopted a bond ordinance providing for various capital improvements, appropriating \$3,851,000.00 and authorizing the issuance of \$2,841,450.00 bonds or notes to finance part of the cost.

On May 28, 2019 the Tax Court of New Jersey approved a judgement involving tax years 2005 and 2006 which reduced the prior assessments on block 5.01 lots 3.07 and 3.08 and on block 1601 lots 2 and 4. Including interest, the judgement calls for the refund of approximately \$6,600,000.00 to the plaintiff. The Township has appealed this judgement. Due to the uncertainty of the outcome of this appeal, no provision has been made in the financial statements for the impact of this appeal.

2. Deposits and Investments

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey that are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal five percent of the average daily balance of public funds; or

If the public funds deposited exceed 75 percent of the capital funds of the depository, the depository must provide collateral having a market value equal to 100 percent of the amount exceeding 75 percent.

Township of Plainsboro
Notes to Regulatory Basis Financial Statements
Years ended December 31, 2018 and 2017

2. Deposits and Investments – (continued)

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Cash and cash equivalents include petty cash, change funds, amounts on deposit and short-term investments with original maturities of three months or less. Investments are stated at cost, which approximates fair value.

As of December 31, 2018 and 2017, cash and cash equivalents of the Township consisted of checking and cash management accounts.

The carrying amount of the Township's deposits at December 31, 2018 was \$25,403,204.39 (excludes petty cash and change funds) and the bank balance was \$26,025,549.05. Of this amount, \$1,000,000.00 was covered by federal depository insurance, \$24,841,448.79 was covered by a collateral pool maintained by the banks as required by New Jersey Statutes in accordance with the New Jersey Governmental Unit Deposit Protection Act ("GUDPA") and \$184,100.26 was not collateralized, which consisted of a payroll agency account balance of \$140,902.63 and \$43,197.63 held in New Jersey Cash Management accounts.

The carrying amount of the Township's deposits at December 31, 2017 was \$35,813,770.01 (excludes petty cash and change funds) and the bank balance was \$32,894,753.68. Of this amount, \$1,000,000.00 was covered by federal depository insurance, \$31,726,327.64 was covered by a collateral pool maintained by the banks as required by New Jersey Statutes in accordance with the New Jersey Governmental Unit Deposit Protection Act ("GUDPA") and \$168,426.04 was not collateralized, which consisted of a payroll agency account balance of \$126,007.88 and \$42,418.16 held in New Jersey Cash Management accounts.

GASB Statement No. 40 requires that the Township disclose whether its deposits are exposed to custodial credit risk (risk that in the event of failure of the counterparty, the Township would not be able to recover the value of its deposit or investment). Deposits are considered to be exposed to custodial credit risk if they are: uncollateralized (securities are not pledged to the depositor), collateralized with the securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the name of the Township. The Township does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the Township's deposits were fully collateralized by funds held by the financial institution, but not in the name of the Township. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

2. Deposits and Investments – (continued)

Interest Rate Risk: The Township does not have a policy to limit interest rate risk, however, its practice is typically to invest in investments with short maturities.

During 2018 and 2017, the Township had no investments.

3. School Debt

The West Windsor - Plainsboro Board of Education is a Type II Regional School District. As such, the members of the Board of Education are elected by the citizens of the Townships and school appropriations are set by a Board of Education. Bonds and notes authorized by voter referendum to finance capital expenditures are general obligations of the Board of Education and, as such, are reported on the Statement of Net Position of the Board of Education.

4. Long-Term Debt

The Local Bond Law governs that issuance of bonds to finance general municipal capital expenditures. All bonds issued by the Township are general obligation bonds backed by the full faith and credit of the Township. Bond Anticipation Notes, which are issued to temporarily finance capital projects, must be paid off within ten years or retired by the issuance of bonds. The following depicts the bonds outstanding at December 31, 2018:

General Capital Fund:

\$24,700,000.00 General Improvement Bonds, Series 2010 Annual maturities from \$585,000.00 to \$2,960,000.00 through June 1, 2025 at an annual interest rate of 4.00%.	\$ 16,520,000.00

Current Fund \$ 2,864,000.00

The following fund balance at December 31, 2017 was appropriated in the 2018 budget:

Current Fund \$ 3,124,000.00

6. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied based on the final adoption of the current year municipal budget, and are payable in four installments on February 1, May 1, August 1 and November 1. The Township bills and collects its own property taxes and also the taxes for the County and regional school district and fire district. The collections and remittance of county, school and fire district taxes are accounted for in the Current Fund. Township property tax revenues are recognized when collected in cash and any receivables are recorded with offsetting reserves on the comparative statements of assets, liabilities and fund balance - regulatory basis of the Township's Current Fund.

Taxes collected in advance are recorded as cash liabilities in the financial statements and are as follows:

7. Pension Plans

Substantially, all Township employees participate in the Public Employees' Retirement System or the Police and Firemen's Retirement System. The Division of Pensions within the Treasury Department of the State of New Jersey is the administrator of the funds and charges municipalities annually for their respective contributions. The plans provide retirement and disability benefits, annual cost sharing multiple-employer defined benefit plans and as such do not maintain separate records for each municipality in the state and, therefore, the actuarial data for the Township is not available. The Division of Pensions issues publicly available financial reports for each of the plans that include financial statements and required supplementary information. The reports may be obtained by writing the State of New Jersey, Division of Pensions.

Covered employees are required by State statute to contribute a certain percentage of their salary to the plan. In addition, the PERS and PFRS bill the Township annually at an actuarially determined rate for its required contribution. The current rate is 7.5% and 10%, respectively, of annual covered payroll. The contribution requirements of plan members and the Township established and may be amended by the Board of Trustees of the respective plan. The Township's contributions to the PERS, including deferral repayments, for the years ended December 31, 2018, 2017 and 2016 were \$761,943.00, \$703,274.00 and \$652,846.00, respectively, equal to the required contributions for each year. The Township's contributions to the PFRS, including deferral repayments, for the years ended December 31, 2018, 2017 and 2016 were \$1,018,195, \$904,829.00 and \$900,874.00, respectively, equal to the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employee's Retirement System (PERS)

At December 31, 2018 and 2017, the Township's liability for its proportionate share of the net pension liability was \$15,221,345.00 and \$18,208,045.00, respectively. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The Township's proportion of the net pension liability was based on a projection of the Township's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2018, the Township's proportion was 0.0773069100 percent, which was a decrease of 0.0911712400 from its proportion measured as of June 30, 2017.

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.25%
Salary increase through 2026	1.65 - 4.15%
	based on age
Thereafter	2.65 - 5.15%
	based on age
Investment rate of return	7.00%

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. To the extent the actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions the emerging liability may be higher or lower than anticipated. The more the expectation deviates, the larger the impact on future financial statements.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	5.00%	5.51%
Cash equivalents	5.50%	1.00%

	<u>100.00%</u>	

Discount rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

7. Pension Plans – (continued)

The discount rate used to measure the total pension liability was 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions:

Inflation rate	2.25%
Salary increase through 2026	2.10 - 8.98%
	based on age
Thereafter	3.10 - 9.98%
	based on age
Investment rate of return	7.00%

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2013.

The total pension liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of July 1, 2016, which was rolled forward to June 30, 2017. This actuarial valuation used the following actuarial assumptions:

Inflation rate	2.25%
Salary increase through 2026	2.10 - 8.98%
	based on age
Thereafter	3.10 - 9.98%
	based on age
Investment rate of return	7.00%

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2013.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Combined Healthy Mortality tables projected on a generational basis from the base year of 2000 to 2013 using Projection Scale BB and the actuary's modified 2014 projection scale thereafter. For preretirement accident mortality, a custom table with representative rates was used and there is no mortality improvement assumed. Post-retirement mortality rates for male service retirements are based on the RP-2000 Combined Healthy Mortality Tables projected on a generation basis using Projection Scale AA from the base year of 2012 to 2013 and the actuary's modified 2014 projection scale thereafter. Postretirement mortality rates for female service retirements and beneficiaries were based on the RP-2000 Combined Healthy Mortality Tables projected on a generational basis from the base year 2000 to 2013 using Projection Scale BB and the actuary's modified 2014 projection scales thereafter. Disability mortality rates were based on a custom table with representative rates and no mortality improvement assumed.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	5.00%	5.51%
Cash Equivalents	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%

Discount rate

The discount rate used to measure the total pension liability was 6.51% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2062. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2062, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

The discount rate used to measure the total pension liability was 6.14% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 40% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Special Funding Situation

Under N.J.S.A 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation and the State is treated as a non-employer contributing entity. The non-employer contributing entities' total proportionate share of the collective net pension liability that is associated with the Township as of June 30, 2018 and 2017 is 0.1088107096% and 0.1085383012%, respectively, and the non-employer contributing entities' contribution for the year ended June 30, 2018 and 2017 was \$118,448 and \$93,850, respectively. The State's proportionate share of the net pension liability attributable to the Township for the year ended December 31, 2018 and 2017 was \$1,999,996.00 and \$1,876,837.00, respectively.

Pension Deferral Liabilities – In 2009, the New Jersey State Legislature approved legislation (Chapter 19, P.L. 2009) allowing for the deferral of 50% of normal contributions and accrued liability for both PERS and PFRS. The deferral amounts are to be paid off over a fifteen year period from April 1, 2012 to April 1, 2026. The Township opted to defer 50% of its 2009 PERS and PFRS obligations. The amounts deferred were \$213,255.50 for PERS and \$406,009.50 for PFRS.

During the years ended December 31, 2018 and 2017, the following changes occurred in the pension deferral liabilities:

Plan description and benefits provided

The Township participated in the State Health Benefit Local Government Retired Employees Plan (Plan), a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan administered by the State of New Jersey Division of Pension and Benefits. The Plan covers employees of local government employers that have adopted a resolution to participate in the Plan. The Plan provides medical and prescription drug coverage to retirees and their covered dependents. Rules governing the operation and administration of the program are found in Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999. Additional information about the Plan is available from the State of New Jersey, Division of Pensions and Benefits Comprehensive Annual Financial Report, which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

OPEB Liabilities and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2018 and 2017, the Township's liability for its proportionate share of the net OPEB liability was \$18,909,451 and \$23,934,654, respectively. The net OPEB liability as of December 31, 2018 was determined by an actuarial valuation as of June 30, 2017 which was rolled forward to June 30, 2018. The net OPEB liability as of December 31, 2017 was determined by an actuarial valuation as of June 30, 2016 which was rolled forward to June 30, 2017. The Township's proportion of the net OPEB liability was based on a projection of the Township's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating local governments, actuarially determined. At December 31, 2018 and 2017, the Township's proportion was 0.120699 and 0.117236 percent, respectively.

At December 31, 2018, the Township's deferred outflows of resources and deferred inflows of resources related to OPEB were from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of assumptions	\$ -	\$ 4,796,630

Actuarial Assumptions

The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The actual assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%
Salary increase through 2026	1.65% to 8.98%
	based on age
Thereafter	2.65% to 9.98%

Discount Rate

The discount rate for June 30, 2018 and 2017 was 3.87% and 3.58%, respectively. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Mortality Rates

Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female Mortality table for males or females, as appropriate, with adjustments for mortality improvements based on MP- 2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

Certain actuarial assumptions used in the June 30, 2017 valuation were based on the results of the pension plan's experience studies for which the members are eligible for coverage under this Plan – PFRS and PERS. The PFRS and PERS experience studies were prepared for the periods July 1, 2010 to June 30, 2013 and July 1, 2011 to June 30, 2014, respectively.

8. Post-Employment Benefits Other Than Pensions (OPEB) – (continued)

The following presents the Township's proportionate share of the net OPEB liability as of December 31, 2017 calculated using the healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	At 1% Decrease	At Current Health Care Cost Trend Rate	A 1% Increase
Township's proportionate share of the net OPEB liability	\$ 19,890,397.00	\$ 23,934,654.00	\$ 29,200,746.00

Police and Fire - Special Funding Situation

Under Chapter 330, P.L. 1997, the State shall pay the periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium of periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L. 1989.

Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net OPEB liability that is associated with the local participating employer. The State's proportionate share of the net OPEB liability associated with the Township as of June 30, 2018 was \$8,746,980.00. The Township's proportionate share was \$0. The State's proportionate share of the net OPEB liability associated with the Township as of June 30, 2017 was \$11,870,891.00. The Township's proportionate share was \$0.

The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The State's proportionate share of the net OPEB liability associated with the Township was based on a projection of the State's long-term contributions to the OPEB plan associated with the Township relative to the projected contributions by the State associated with all participating entities, actuarially determined. At June 30, 2018, the State's proportionate share of the net OPEB liability associated with the Township was 0.140766 percent and included 40 plan members. At June 30, 2017, the State's proportionate share of the net OPEB liability associated with the Township was 0.136519 percent and included 38 plan members.

9. Compensated Absences

As discussed in Note 1 and in accordance with accounting principles prescribed by the Division, the cash basis of accounting is followed for recording the Township's liability related to unused vacation and sick pay. The Township permits certain employees within limits to accumulate unused vacation and sick pay, which may be taken as time off or paid at a later date at an agreed upon rate. The estimated current cost of such unpaid compensation would approximate \$757,724.71 and \$728,110.50 at December 31, 2018 and 2017, respectively. In accordance with New Jersey accounting principles, this amount is not reported as an expenditure or liability in the accompanying financial statements. As of December 31, 2018 and 2017, \$57,000.00 and \$56,000.00, respectively, was set aside in the Trust Other fund for the payment of compensated absences.

10. Tax Appeals

There are several tax appeals pending before the State Tax Court of New Jersey requesting a reduction of assessments for the year 2018 and prior. Any reduction in assessed valuation will result in a refund of prior years taxes in the year of settlement, which may be funded from tax revenues, through the establishment of a reserve or by the issuance of refunding bonds per N.J.S. 40A:2-51. One appeal has been settled for the years 2008 through 2011 which requires the Township to make annual payments of \$500,000.00 from 2015 through 2018. The Township has established a Reserve for Tax Appeals through annual budget appropriations. At December 31, 2018 and 2017, the balance in the Reserve for Tax Appeals was \$766,090.58 and \$750,242.52, respectively. The Township's 2019 budget provides an appropriation of \$570,000.00 which will increase the Reserve for Tax Appeals. In accordance with the National Council on Governmental Accounting Statement 4, *Accounting and Financial Reporting Principles for Claims and Judgments and Compensated Absences*, the Township charges to current fund operations or a reduction of current tax collections, all state board judgments rendered during the year which will be paid from expendable available resources. The Township's share of the County taxes paid on any successful tax appeal would result in appropriate reductions applied against the County tax levy of the following year.

11. Commitments and Contingencies

The Township receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes.

Substantially all grants, entitlements and cost reimbursements are subject to financial and compliance audits by the grantors. As a result of these audits, costs previously reimbursed could be disallowed and require repayment to the grantor agency. As of December 31, 2018, the Township estimates that no material liabilities will result from such audits. The Township is involved in certain legal proceedings, the resolution and impact on the financial statements of which, individually or in the aggregate, in the opinion of management as advised by legal counsel, would not be significant to the accompanying financial statements.

12. Risk Management

The Township participates in a Joint Insurance Fund ("JIF"), which currently serves as administrator of the Township's insurance program. The joint insurance pool is a public utility risk pool currently operating as a common risk management and insurance program for municipalities in New Jersey. The JIF covers all Township claims in excess of various deductibles and is funded by Township budget appropriations to pay for premiums that are assessed annually. The JIF is expected to be self-sustaining through member premiums, of which the Township portion is reported as expenditure in the Township's financial statements. In addition, the Township is not aware of any claims pending that have a demand in excess of these coverages. There have been no settlements which exceeded insurance coverage for each of the past three fiscal years.

13. Deferred Compensation

The Township of Plainsboro offers its employees a Deferred Compensation Plan, created in accordance with the provisions of N.J.S. 43:15B-1 et.seq. and the Internal Revenue Code, Section 457. The plan, available to all municipal employees, permits them to defer of a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

Statutory and regulatory requirements governing the establishment and operation of Deferred Compensation Plans have been codified in the New Jersey Administrative Code under the reference N.J.A.C. 5:37.

The "Small Business Job Protective Act of 1996" revised several provisions of Section 457 of the Internal Revenue Code. A provision of the act required that all existing plans be modified to provide that the funds be held for the exclusive benefit of the participating employees and their beneficiaries. The administrators for the Township of Plainsboro Deferred Compensation Plan are MetLife and Nationwide Financial. The plan's assets are not the property of the Township and therefore are not presented in the financial statements.

14. Interfund Receivables and Payables

The following are reflected as interfund receivables and payables on the various comparative balance sheets – regulatory basis:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
Current	\$ 14.48	
Trust Other	<u> </u>	\$ <u>14.48</u>
	<u>\$ 14.48</u>	<u>\$ 14.48</u>

All interfunds are expected to be liquidated within one year.

15. Mortgage Receivable

The Township has a mortgage receivable, dated December 11, 1992, from Plainsboro Housing Partners, LP in the amount of \$550,000.00. On July 28, 1993, the mortgage was modified and an additional \$250,000.00 was loaned to the Partnership on the same terms and conditions as the original mortgage. The total mortgage of \$800,000.00 accrues interest at 4% per annum on the outstanding principal balance for 30 years. Repayment of principal and interest will be made from net cash flow to the extent available pursuant to the promissory note. In December 2004, Plainsboro Housing Partners, LP restructured its debt so that all accrued interest and principal is due in a balloon payment on December 31, 2033. The mortgage is secured, as a second position mortgage, by the building and the land of the Partnership. The total mortgage balance outstanding excluding accrued interest as of December 31, 2018 and 2017 was \$800,000.00 and is fully reserved.

GENERAL COMMENTS
DECEMBER 31, 2018**

Contracts Required To Be Advertised for N.J.S. 40A:11-4

N.J.S. 40A:11-4a states "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which exceeds the bid threshold (N.J.S. 40A:11-3), shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body and subject to subsections b. and c. of this section, disqualify a bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder.

If the purchasing agent is a qualified purchasing agent, the governing body of the contracting unit may establish that the bid threshold may be up to \$40,000.00. Such authorization was granted by the governing body as the Township's purchasing agent is a qualified purchasing agent. Accordingly, the Township's 2018 bid threshold is \$40,000.00.

The governing body of the municipality has the responsibility of determining whether the expenditures in any category will exceed \$40,000.00 within the fiscal year. When a question arises, the Township Counsel's opinion should be sought before a commitment is made.

The system of records did not provide for an accumulation of payments for categories of materials or supplies, or related work or labor. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

The minutes indicate that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S. 40A:11-5. Professional Service contract awards were advertised in 2018.

Our examination of expenditures on a test basis did not reveal any individual payments, contracts or agreements that were made in excess of \$40,000.00 "for the performance of any work or the furnishing of labor, materials or supplies or the hiring of teams or vehicles" other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provision of N.J.S. 40A:11-6.

GENERAL COMMENTS
DECEMBER 31, 2018**

Collection of Interest on Delinquent Taxes and Assessments

The statute provides the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes and assessments on or before the date when they would become delinquent.

The governing body, in 2018, adopted a resolution authorizing interest to be charged on delinquent taxes and assessments as follows:

1. The Tax Collector is hereby authorized and directed to charge eight percent (8%) per annum on the first \$1,500.00 of the delinquency and eighteen percent per annum on any amount in excess of \$1,500.00.
2. The Tax Collector is hereby authorized and directed to charge the 6% year end penalty on delinquent taxes greater than \$10,000.00.
3. Effective, January 1, 2018 there shall be a ten calendar day grace period after the due date of each quarterly tax installment in which payments will not be subject to interest charges. Should the expiration of the grace period fall on a non-working day, the payment shall be accepted on the next working day without interest charges.
4. Any tax payment not made in accordance with paragraph 3 of this resolution shall be charged interest from the due date.

From an examination of the Tax Collector records on a test basis interest was collected in accordance with the foregoing ordinance and statutes.

Delinquent Taxes, Tax Title Liens and Assessments

The detail of all unpaid taxes for 2018 and prior years, and tax title liens are being properly carried in the Tax Collector's records. An abstract taken from these records as at December 31, 2018 covering all unpaid charges on that date was verified with the accounting control figures shown in this report.

The last tax sale was held during 2018 and it was complete. The Township has municipally held liens.

Cash and Cash Equivalents

The cash balances in all funds were verified by independent certifications obtained from the depositories as at December 31, 2018. Bank reconciliations were examined as of March 31, 2019 in connection with the supplemental reconciliations.

Cash counts were made at various dates in selected departments of the Township and bank balances were independently reconciled to the books and records or to such schedules of receipts and disbursements provided for audit.

The change funds and petty cash funds were counted.

GENERAL COMMENTS
DECEMBER 31, 2018**

Revenues

Receipts from licenses, fees, fines and costs, etc., for all departments, including the Municipal Court, were checked, on a test basis, to the records maintained to the extent deemed necessary.

Expenditures

The vouchers pertaining to all funds were examined and on a test basis to the extent deemed necessary to determine that they carried the properly executed certifications as required by statute. No exceptions were noted.

Payroll

An examination was made of the employees' compensation records for the year 2018 on a test basis to determine that salaries were paid in conformity with the amounts of salaries and wages authorized by ordinance. No exceptions were noted in those items tested.

The Township uses an outside vendor for processing of both net pay and withholdings. A (SOC 1) Report on Internal Control of Service Organizations was on file. Our examination of the payroll did not cover verification of the validity and reasonableness of the allocation of salaries for individuals whose job encompasses activities that relate to more than one of the Township's Operating Funds or Departments. The allocation of salaries for individuals whose duties encompass more than one fund or appropriation is done at the sole discretion of the management of the Township. It is proper and legal to allocate salaries amongst funds as long as the duties of the individuals relate to the costs charged to the fund or function.

Miscellaneous Comments

The confirmation received from the Regional Board of Education verified the correct school tax payments and year-end liability.

Construction Code Official

Based on our testing, the Borough is in compliance with the NJAC 5:23-4.17.

Library

The Township provides, annually, budget appropriations for the library, which receives their appropriation from the Township on a quarterly basis and has their own independent audit.
